

**With all we know about printing and mailing
we could go on Jeopardy.**

If the only two categories were printing and mailing.

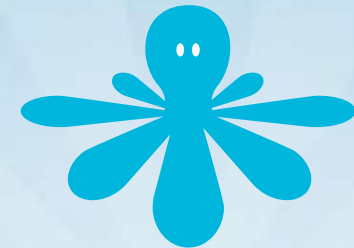

Blue Octopus offers complete printing and mailing services under one roof.

At Blue Octopus we offer both printing and mailing services. “Nice,” you might say, “but other companies do that, too.” The difference is that at many other printing companies, mailing services are an afterthought. However, at Blue Octopus, you receive the expertise and experience that comes from more than 15 years in the mailing and fulfillment business through our sister company – Post Masters, a ISO 9001:2008 certified operation. Among its services are:

- USPS certified MQC specialist to ensure your work meets automation standards
- High-speed inkjet addressing
- Maximum postage discounts
- Poly bagging and shrink wrap available
- Expert advice on best print and mail formats to meet your goals
